## EXPERIENCE

### Retail Manager & Visual Merchandiser

#### Riko Veterinary Clinic

07/2018 - 04/2025 Tehran, Iran

- From leading sales teams on the floor to curating product stories that resonate, I thrive at the intersection of creativity and commerce. With over six years of experience in retail, I've developed a deep understanding of customer behavior, visual storytelling, and performance-driven presentation. I'm ready to bring my passion for people, products, and purposeful presentation into a brand that values bold thinking and flawless execution.

### Jewelry design & Silversmithing

#### Self-employed

01/2023 - 04/2025 Tehran, Iran

- With hands-on experience in silversmithing, I have worked with various techniques including wax modeling, lost-wax casting, silver melting, and stone setting. I have designed and crafted original pieces that showcase both artistic vision and technical precision. My work has been featured in two curated events, where I had the opportunity to present my collections to the public and connect with industry professionals and design enthusiasts.

### Freelance Architect

#### Self-employed

2023 - Present

- Location Managed communication with clients, budget planning, and revisions based on feedback Delivered complete packages including interior layouts, technical drawings, and 3D visualizations

- Supported design concepts for projects located on steep-slope AutoCAD Photoshop Revit terrains and challenging landscapes Conducted detailed site analyses considering topography, climate, and cultural context Rhino SketchUp Gmail Attended site visits, created documentation, and participated in internal design workshops Contributed to design development using Revit and Rhino under the supervision of senior architects

## SUMMARY

Detail-oriented designer with a multidisciplinary background in architecture and silversmithing, driven by a deep sensitivity to form, function, and material. My work spans interior design, technical drawing, and 3D visualization, with a consistent focus on creating environments that are both functional and visually compelling. From reimagining veterinary clinics and mixed-use studios to crafting intricate silver jewelry using wax modeling and stone setting, I approach every project with precision, craftsmanship, and a designer's eye for subtlety. My ability to translate abstract ideas into tangible, well-executed design solutions is rooted in both spatial thinking and hands-on making.
